

Vote for Carmenlina Minasova

VOTE FOR LOS ANGELES COUNCIL DISTRICT 6 AND CA STATE ASSEMBLY DISTRICT 43 TO HAVE BETTER FUTURE! I'M RUNNING FOR BOTH DISTRICTS AND THIS IS NEW WAY TO FIX PROBLEMS

4 years ago, in COVID 19 pandemic time, I was one of frontliners dealing with deadly disease at my workplaces. Most people need to stay in their home as ordered, but I and some others need go to work and fight against deadly disease to keep patents alive. I don't know if we will come back home safely home, but I have a passion to help people that time. Now the government is with "new diseases" called negligence, bureaucrats, corruption and ignorance of our community crisis. I like to mention this "Democracy is not what I want, Democracy is what the majority People want and needs! It does not matter if you are Democrat, Republican or Independent, people deserve to have a safe and quality of life! Now, is time to act and vote! Help us God! Carmenlina Minasova www.MyDistrict6.com

HOW LONG DO WE NEED TO BE IN THIS CRISIS AND WHY? RETURN POWER TO CITIZENS!

Politicians are abusing Taxpayers money, they getting richer and richer, but residents getting poor and poor. We not safe anymore, rising crim corruption, bureaucracy, negligence, drugs and alcohol addiction, mental illness, homeless and Animal crisis. How to fix those? If I elected, I will logically fix tho by gave residents power back, create better laws at state level and Fix issues at city level. Those below are key of my plans welcome to look.

1. Reform of government system in LA City to provide more budget and control to Neighborhood Councils with salaries
2. PROTECT the Constitution of USA
3. Not allow Government to Restrict our Rights!
4. Better Election Law at LA city : No More 500 Signatures
5. Create Online Complain Forms
6. Police REFORMS and have more police presence, implemmnets drones and elect of LAPD Chief by Residents!
7. FIX HOUSING PROBLEMS: requiere 2 on porperty parking spaces for each unit, have solar and recycling water system
8. HOMELESS Issues: have a centarlaized system for assistance, designated RV parking sites.
9. Each city create shelters like the European system for the homeless, that are managed by Red Cross and National Gurds and local hospitals. Provide more jobs
10. Centralized Veterans and Seniors Services
11. Have 24/7 MENTAL, DRUGS AND ALCOHOL services
12. Revise Education System where Parents have Rights
13. Provide 24/7 security at all Shopping Centers
14. Reduce Property and Income Tax in CA
15. Medical and Mental Reforms: include All Respiratory Care Practitioners allow diagnosis and treatment in there scope of practice
16. Improve Public Defender system
17. Provide temorary documents for all immigrants
18. Eliminate Prop 47 and 57 in California where thefts under \$950 will not be prosecuted and immediate release of thousands danger criminals by replacing with a New LAW: if anyone does crime must see judge and lockup all criminals!
19. Refom Emmision law in CA by de-monopolize the law which only allow Magnaflow company to sale Catalectic Convertors in CA, to allow more competition and availibility more Catalictyc Convertor this will reduce theft
20. MORE STREET LIGHTINIG:Install Solar Lights on dark streets with cameras
21. Required "STOP" Signs painted and posted on the streets to improve visibility
22. MORE PARKING: Overnight parking, permit parking, and open low rate fc residents parking spaces

Enough waiting! We need to act now. Everyday, criminals keep broking our cars or innocent people die from speeding, homeless all over. Fentanyl and other drugs killing people, Mental crisis or animal high cost and crisis, your Rent and groceries prices, taxes and gasoline goes up, and more. How long will politicians continue to abuse us, by raising high taxes, or tax money goes to them and they don't care. Where does money to homeless go? It all goes to politicians.

My name is Carmenlina Minasova, I'M NOT A POLITICIAN, but I'm in medicine, and human Rights activist. I run in this election because we are in crisis. We become victims of politicians we voted for, but after being elected they forgot our problems, so this time I propose several plans and ideas to help rebuild our districts. We as residents we need take control and fix all problems. The best way to have success is to vote for a good candidates. Elect me to both level of government to make laws at state level and implement that laws at city government level. State Assembly District 43 and Los Angeles City Council District 6 governments to need **direction to able fix problems faster and logical, CA state is making some none sense laws and city officials can not fix problems. That's why I apply for both government. My candidacy is to be able to do better work of both governments. State, county and city government are disconnected form each that's why we are in crisis**, San Fernando Valley districts cites are: Van Nuys, Panorama City, North Hills, Lake Balboa, Arleta, Sun Valley, North Hollywood, Mission Hills, Grenada Hil All of those streets must install solar lights, so our city will be brighter at night and be safer, make our streets nicer, cleaner, safer for all residents so we can again to enjoy our local cities restaurants and public places! **You, as resident deserve to have better and safer living condition because you pay taxes.**

Ipromise I will Fight To Change CA State and Los Angles Bureaucrat System: Include those laws and Bills that protect Special Interest People. Politicians take advantage from taxpayers. They Abuse our taxpayer money by setting up High Salaries for Elected officials, from \$230,000-500,000 a year and over pay for any special interest projects. The our government's budget setup is nonsense ratio where 80% for their salaries and 20% for resident's services., That's why we don't have enough money to have more street lights or services because they abused our taxpayer money even without people approval Another reason I join in this election because this crisis affect all resident's quality of life. When helping homeless and other group of people by yourself will not be enough to help the majority of people who need help. As an elected official you can have recourses and speak up and represent in the people to higher level government and get and make resources, with better outcome and will be able help to all the people.

We have another crisis. Do you know the Majority of Californians don't vote? Especially the young generation, data show only 10-20% vote. That's why corruption take advantage, low participation in election time only help those special interest. Politicians who are reelected over and over again and that's why you don't see any good changes in our Los Angeles. I will advocate to have a better the New Democratic Election System to allow all USA citizens who is 18-years old can run for a office without paying any expenses and don't have unreasonable limitations such as collect crazy high number of 500 signatures for nomination. Only have 40 signature like at state, county or federal elections, so any city elections must follow state election standards even salaries. The question why the local city election time, they ask 15 times more signatures so I let you think. The reason is they want less competition and more control and less candidates will run. We need to have a Better election system that will improve and increase voter participation on election time from 10-20% to 50% votes. USA Constitution is guaranty it, but CA State or Local Governmei doesn't, they make it harder to be candidate and almost impossible to be candidate on ballot and show their idea and platforms to voters. Please Vote by March 5, 2024 and send good people who want to make good changes in CA. Please support me and if you agree vote by March 5, 2024 and allow me to help residents. That is my Mission! Help others, tell the Truth and stand for the People and Values hat we have!

Lets talk about my experience and professional activity to know me better. You can always call, text or email me. That is my priority that all residents must have option to contact direct with their representatives. All public service politicians can be contacted.

I am Medical Professional Practitioner with Military Medical and Respiratory Experiences, Homeless Advocate and support, Rescue Animal and Neighborhood watch activist, Secretary of Human Rights, Journalist, Volunteered at several organizations events, Red Cross, Veterans Hospital VA, Aviation, LAPD and Glendale PD, Churches and Other Religions organizations. Helping Students and Senior Citizens. Experience of over 30 years, Support Hispanic, Black, Asian, White and all nationalities and cultures. Stand for all People who are victims of Armenian, Palestinian, Jewish, African and other nations who keep suffering from Genocides. People need protection from powerful dictators and corrupted politicians and against terrorism, crimes, special interest, and any hate and racism. As Human Rights Defender, I am Advocating and Defending Human Rights and the message to respect each others. I am honest, listens to people, hardworking, value own worlds, is kind and always helping people!

The Key of Plans and Ideas of What I want to fix:

Change Los Angeles city structure by gave more power to Neighborhood Councils and Residents. Reduce power form District Council office and increase power for residents such as Neighborhood Council system. Increase their budget and allow them to operate freely and take control of their area. Provide salaries and budgets to help homeless and residents. Follow up with all city departments, communicate directly with District Council oversight. Neighborhood Council representatives and residents must have control over the salaries of elected officials. They can approve and recommend the amount of spending when there is use of taxpayer money, but salaries cannot higher than state salaries. **All residents have the ability to meet any official elected** or appointed representatives such Mayor, Police chief, or Sheriff Chief and others for at least 15 minutes to address their issues to high level of government City, County and State, Justice included Judges. No one at county or city level can be excluded from the stated salary for mayors, police chiefs, or other elected officials. They must have the same salary level as that of other sta officials.

Create an Online Complaint system to address Residents concerns and issues. District 6 and 43 create computerized Map system of problems. **MyLA311** system updates with parking and police non violent reports. New Way Government on District 6 and 43 with New Communication System. More involvement of residents on meetings and discussions by Zoom or often a direct and indirect meetings with residents.

- LAPD Reforms, Chief need to be Elected by Residents not appointed by Mayor or Politicians. This will prevent police cruelty. **LAPD TEXT Report system for none violent crime** New TEXT System by send reports for Non-Violent crimes. Send tips by text to LAPD. Trust between the Police and residents

HOUSING PROBLEMS: Support CITY AND STATE GOVERNMENTS TO BUILD HOUSES Projects with multi floors and **OFFER UNHOUSES RESIDENTS to ABLE PAY RENTS RANGE(\$700-1200)** Housing authority must need change work style and have direct contact with all who need help.

HOMELESS CRISIS: To have New Centralize System for Homeless, where all resources from state, county or city governments have one centralize system to provide aid. Provide special free RV parking places for homeless with restroom and shower and trash services

Open New European style shelters WITH NATIONAL GUARD AND RED CROSS AND OTHER TRUSTED ORGANIZATION at each cities in our district, to provide full services medical, mental, drug detox, So homeless will get help in one place instead of travel to all agencies all around LA. This will also provide them mailing addresses to use on any applications for aid and manage housing issues. Those who are homeless and have some criminal issues will need to do community services or help in same shelters. T can do community service by cleaning streets or around the shelters. The European shelters will also provide on site mental help by medical staff form local hospitals doctors and nurses and pharmacist to provide medications if need. In 3 months put all homeless people insid those shelters and start the process for permanent housing for them.

MENTAL, DRUGS AND ALCHOGOL CRISIS: Create New Mental Emergency Ambulances Team to help all mentally ill people by patrolling the streets New Alcohols and Drugs overdose Rescue mobile Ambulances operating 24/7 on streets to better manage those who need those help. For distributing Fentanyl or any type of illegal drugs for sale in CA will require jail time of up to 3 years. For repeat offenders of the same crime, they get 5 years or more in jail and longer probation New Fentanyl Bill. no one can sell or use Fentanyl drugs in CA. If anyone violated the law they must be isolated and place in a hospital to have detox process in 10 days and afterwards with mandatory follow-up doctor checkups. Any of person under the influence of drugs or alcohol must be isolated and get help with mandatory drug an alcohol detox program. They have free follow up service with psychiatric support. After intervention and they relapse multiple times, they need to be isolated from the public and placed in a hospital. They must appear before a judge at a court hearing to decide further action. Provide a detox system for addicted CA residents that includes detox and follow up psychiatric care. These services will be provided Free to all those who suffer from any type of drug addiction.

EDUCATION: Parents need to have full control of their children's education. Parents need to have a vote in the educational quality and programs that the schools give. By voting, parent are able to request to change their kid's education standards and to change the education the schools. At all schools area provide parking and traffic control help parents and students safely drop off and pick up services. At all Schools and colleges entrance check point for gun and drugs screening by police and security to prevent school mass shootings.

Shopping Centers provide security monitoring 24/7 All shopping centers for shopper safety need to have Public Safety Officers to monitor and help prevent criminal activity, with the support of local police and city government.

Centralized Veterans and Seniors Services and Reduce property tax and Income in CA.

Medical and Mental Health Laws and Bills: I propose a law to allow all Respiratory Care Practitioners to diagnose and prescribe medications in they scope practice, that will reduce ER departments waiting time and with more practitioners will help those patients who have respiratory issues, similar to what a Nurse Practitioner or Physician Assistant can do. Help decrease time in Emergency Departments with in 2 hours. For Medical dental coverage must need updated and gave mc coverage for treatment plans similar as PPO insurances

Court and Justice System: I propose better solution in court to choose public defender services by defendant and **reduce** waiting time to see judge **New Immigration Law in CA:** Allow undocumented persons to have CA ID, Temporary Work Permit, DL to drive car with insurance, so that will be different to protect other Citizens rights in CA.

IMMIGRATION SERVICES: To protect USA residents and provide safety to all, Undocumented immigrants need to follow CA Laws Any immigrant in CA must provide legal temporary documents in order to drive a car and must have car insurance. During their immigration review time, they need to l in CA. And if they work, they have to pay taxes. They will have free or low cost support for immigration consultation and representation

CRIME CRISIS: To Stop or Reduce Crime in LA, I Propose better laws in State CA and have criminal charges against any type of Robbery and thefts, Racism, **Hate crime**, even attacks by improper words to person or organizations by direct evidence videos or any others ways, to have also law of criminal charges of drifting, or speeding in LA City. The current CRIMINAL law when there is less than \$950 in damage or loss is a mister meaner where the criminal is charged and released, needs change. It needs to be replaced with any amount of damage, theft or loss, they will be charged and have to appear in court, before a judge to explain their action. If foun guilty, they have to pay the court fees and 100 times more in damages. If they are repeat offenders, they will face jail time.

Theft of Catalectic Convertors can resolved by 80% if we DEMONOPOLISE CA State law and allow to all companies convertors to sell and ship catalectic convertors in CA. That will increase quantity of catalectic convertors and reduces price, meantime will reduce crime because we will have more of those in market and the cost of them will dramatically decrease and no need to steal anymore. Now CA only approve "MAGNAFLOW" Company (www.magnafLOW.com) catalytic convertors for replacement. And their prices too high that's why criminals take advantages from car owners. Now state politicians make legal corruption by helpin special interest companies to monopolize. We need to change the non sense Emission law that allow only one company, MegnoafLOW to sell in CA.

STREET LIGHTING: MORE street light is more effective to reduce crime, darkness will allow criminal steal cars, and do their crimes easy way, I am proposir in all District 6 and 43 install new environmental clean energy solar light posts, so all streets must with in 1 year have install solar post lights and no need worry about criminal cut expensive copper wires because solar light post don't have it. All city streets must install; new clean energy solar street lights with additional security wireless cameras at 500 feet to observe public streets, bus stops, parks and any public shopping centers for public safety.

SPEEDING AND DRIFTING: in our streets are dangerous, I Propose Criminal law charges to those drivers who do drifting and drive at high speed on residential roads. I will propose to have Install more **speed limitation Humps** at most known danger intersections and in major streets also **speed monitor systems** with New cooperation with homeowners or businesses private or public security cameras, so LAPD will able access and monitor those areas and respond properly. Addition, install on street Light posts cameras to monitor public areas and residents will be more safe and also to scare criminal from stealing cars or do their criminal activity.

On Street Install More STOP SIGNS and STOP WORDS IN THE GROUND to better visible for drivers especially in areas where there are no street lights

MORE PARKING: Open More Overnight parking and limit parking in new locations in District 6 and 43

Help Animals: Rebates for people who help homeless and own animals that will decrease cost of feeding and medical bills. All animal shelters to have veterinarian service for low income and low cost animal services Homeless animals keep multiplying on our streets. I offer low or free who qualify low cost surgery Now, cost of services to spay or neuter is \$700, so LA Animal Services only offer \$200 for low income pet owner. But that isn't solution. I recommending pass bill and to have at all LA shelters veterinarians to provide those services for public, included service for spay and neuter.

Reforms of government System. PROTECT Constitution of USA. Not allow Government to Restrictour Rights!

Improve Street Maintenance like sweeping, tree trimming and fix Sidewalks **by city or by reimbursement to homeowner**

Provide jobs for homeless to clean streets and collect recycle from streets with minimum wage by Departments of sanitation

- **Global Warming Issues and for new Environmental policies: Give more recourses** for Environmental organizations to allow them to do research and provide better and logical solutions to implement for government regulations. Help educate residents to **Use recycled water**. For example, install recycle system for kitchen sink, shower and other sinks. Also collect rainwater in tanks for yard use. More solar panels to provide electricity and shade at bus stops that provide charging stations for personal devices and lighting.

For residential homes reimburse to install solar panels with battery back up system. Plant more trees on sidewalk and open spaces, create more parks and green zones for youth and family to play and enjoy outside activities. Los Angeles also need a **Drainage System** to collect rain overflow.

24/7 Monitor **Air quality, Water and all Natural Resources** and create online and text system to reports environmental violations.

Reform of government system in LA City to provide more budget and control to Neighborhood Councils with salaries

Fireworks in LA is illegal. I will propose more control against that by use of drones by LAPD. It scare people, seniors citizen and animals and even lead death. Fireworks is nice, but is danger for public safety and not necessary to have big noises.

4 года назад, во время пандемии COVID-19, я была одним из тех, кто на передовой борьбы со смертельными заболеваниями в моем рабочем месте. Большинству людей необходимо оставаться дома, как им приказано, но мне и некоторым другим нужно ходить на работу и бороться со смертельными болезнями, чтобы сохранить жизнь больны. Я не знаю, благополучно ли мы вернемся домой, но я имела страсть, чтобы помочь людям в то время. На этот раз в нашем правительстве появились «новые болезни», называемые халатностью, бюрократы, коррупция и незнание кризисных ситуаций в нашем обществе. Я хотела бы упомянуть мою философию «Демократия – это не я что хочу, а Демократия – это то, чего хочет и в чем нуждается большинство людей! Больше не имеет значения, вы демократ вы, республиканец или независимый, мы все американцы!

Теперь пришло время действовать! Помоги нам Бог! Карменлина Минасова www.MyDistrict6.com
